

Cloud-Based QuickBooks Hosting

Offered by SMT & Associates Inc

Experience the power of new cloud-based QuickBooks hosting services offered through SMT & Associates, Inc. With this service, your QuickBooks program and data file are hosted on a secure, third-party server that allows both you and us to access your file simultaneously. With 24/7 access to your data you now have the ability for a true “back-office” relationship with us as your tax and accounting firm.

Advantages:

- All the power of desktop QuickBooks without the hassle
- Develop QuickBooks best practices for your company to improve efficiency and accuracy
- Better financial data you can use to run your business
- Automatic off-site backups
- We can remotely access your QB file to keep your data up-to-date
- Certified Data Center – The QB hosting company is a secure, certified SAS70 Type II Data Center
